A NEW ERA OPENS IN SPOTSYLVANIA

An Industrial Revolution Seems to be Impending.

CHESAPEAKE AND WESTERN

The Battlefields Park Bill in Congress Would Give the County a Series of Fine Roads-Signs of Prosperity Among Natives.

(Special Dispatch to The Times.)
HOLLIDAY, VA., June 18.—Spotsylvanians are asking themselves whether i can be indeed true that the old county can be indeed true that the old county, long famed for its poverty, is upon the eve of an era of industrial development and prosperity, such as they have never dared hoped for. If the various great enterprises now projected shall be pushed to completion there can be no question that they would prove revolutionary in effect upon the destiny of the county and the beautiful the front rank of her

effect upon the destiny of the county and place her in the front rank of her neighbors within a brief period.

The engineering corps of the Chesapeake and Western Railroad Company, under the charge of Mr. H. C. Harrison, which passed through this vicinty a few weeks ago en route from Milford to Gordonsville, is now about half way between the latter and this place engaged in making a second survey on the return trio. This latter and this place engaged in making a second survey on the return trip. This last line follows the north bank of the North Anna River, just out of reach of high water from a point near Gordonsville to Emsvalle Mills. Thence cast along the route first surveyed to this place and on to Milford with slight and immaterial changes at various points. By or

during the past ten days securing options upon the rig.t of way.

THE ELECTRIC LINE.

Rappahannock county some weeks ago voted a subscription of \$50,000 to the Fredericksburg, Culpeper and Rappahannock Electric Railway Company, and Culpeper county has recently voted a like sum. The action of these counties has given great encouragement to the promoters of this enterprise, and it is hoped ters of this enterprise, and it is hoped that they are now placed in such a posi-tion as to enable them to make their line

on as to enable them to make their fine an assured fact.

This electric line is expected to pass through the northern portion of Spotsylvania, probably closely following the route of the old Orange pike. This would route of the old Orange pixe. This would mean the development of all that part of the county lying between the Rapidan and Rappahannock Rivers on the north and the Potomac, Fredericksburg and Riedmont (Narrow Gauge) Rallroad on the south, a section now entirely without transportation facilities and exceedingly, the processible

out transportation facilities and exceedingly inaccessible.

The route of the Chesapeake-Western, as surveyed, leaves Caroline county at a point near Blanton's Store, passes about a mile and a half north of Partlow's (formerly known as New Market), about the same distance north of Lewiston (formerly Waller's Tavern) to a point between Good Hope Baptist Church and Lerca Christian Church, a little to the Berea Christian Church, a little to the secth of Andrew's Tayern; then to the Goodwin Gold Mine and on to a point Lif a mile north of this place and thence to the Orange line at a point within half mile of the southeastern corner of that

RAILROAD CONNECTIONS.
The Chesapeake-Western will connect with the Chesapeake and Ohlo at Gor-with the densyille, with the Southern at a point mear Barboursville, and with the Richmond, Fredericksburg and Potomac at Milford. It will open up and give transportation facilities to a wide breadth of courtry entirely across this county, along its southern border.

In addition to these two projected lines In addition to these two projected meso of traffic, the people of Spotsylvania are lecking forward with strong hope to carly action by Congress on the bill to establish a national battlefield park, to en,brace portions of the battlefields at Fredericksburg, Spotsylvania Courthouse, Chancellorsville and the Wilderness. The purpose of this bill is not the purchase of a large area of land, but in order to of a large area of land, but in order to make the battlefields accessible the construction of a system of highways covering a large portion of the county would become necessary. These lines would probably extend from Fredericksburg to Spotsylvania Courthouse, Chancellorsville, the Wilderness, Brock Road and Shady Grove Church. Such a system of reads as is needed can be constructed very cheaply, at a cost which would be very cheaply, at a cost which would be merely nominal, viewed from the stand-point of national expenditures. This is a work which appeals with irresistible force to every patriotic heart. It is strange that it has been so long neglected, and there can be no doubt that it will not be much longer delayed. The Speaker of the House of Representatives, it is understood, is the only cause which preverts immediate action on the part of

THE BILL WILL GO THROUGH. The bill is expected to go through without opposition whenever it can be brought before the House for consideraflon. The worst to be expected, therefore, as to the National Battlefields Park is a little further delay. If we could be as well assured that the other great enterprises which have been mentioned would be pushed to completion the people of this country would indeed have cause to look forward with hope

would be hardly less upon the material would be hardly less upon the material advancement and prosperity of the county than the projected lines of railway through its northern and southern borders. These great enterprises are all now well within the bounds of probability, and afford a fruitful theme of discussion. The ancient and unending war of words between the optimists and the possimists goes merrily on, and the the pessimists goes merrily on, and the kickers and croakers, who have so long ruled and reigned, will undoubtedly long ruled and reigned, will undoubtedly die in the last ditch. If die they must. Let us hope that their end is in sight, and that the ditch they die in may be railroad ditch stretching across the county and wide enough and deep enough to hold the mortal remains of all of that pestiferous lik within the wide borders of the Commonwealth.

Spotsylvania remains to-day practi-rally without means of transportation. The Richmond, Fredericksburg and Potomac Railroad skirts its eastern border for a few miles south of Fredericksburg and the Narrow Gauge Railroad, from Orange Courthouse to Fredericksburg, runs through the county for a distance

of some twenty miles.

THE NARROW GAUGE.

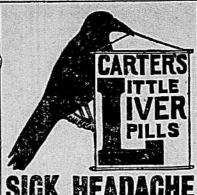

But while it is true that a narrow gauge railroad is much better than none, experience has demonstrated here, as elsewhere, that it is unsatisfactory, ineisewhere, that it is unsatisfactory, inefficient and totally inadequate to meet
the demands of modern business necessities. By far the greater portion of the
people of Spotsylvania haul their produce to Fredericksburg in farm wagen duce to Fredericksburg in farm wagons over to his way of thinking. over to his way of thinking.

Will Close Store Early.

Small Dose. Small Price.

seem insuperable obstacles to prosper-ity, her people have made marked and notable progress in the past twelve to

fifteen years.

The greater part of the county remains wooded, but in many sections are to be found small farming communities, which attract attention by an appearance of thrift and prosperity as the result of careful tillage and good management. Among these neighborhoods may be mentioned Landrum's Shop and Salem Church, Partlow's, the little valley of be mentioned Landrum's Shop and Salem Church, Partlow's, the little valley of Wilderness Run, Parker's Store, Mine Road, Lewiston, Brokenburg, Belmont, Granite Spring and the section around Spotsylvania Courthouse. The little village at the courthouse has in the past three or four years had the greatest boom in its history, and is so changed as to be hardly recognizable. The country officers resident there are very enon to Milford with slight and immaterial changes at various points. By or before the first of July this corps is expected to take up the work of making a gurvey from Milford to deep water at Gloucester Point.

Mr. McDonnell, the agent of the Chesapeake and Western Railroad Company, has been working in this neighborhood during the past ten days securing options upon the rig. t of way.

The Electric Line.

Rappahannock county some weeks ago voted a subscription of \$50,000 to the Fredericksburg. Culpeper and Rappahannock Electric Railway Company, and Cultime forests, built them homes, opened small clearings, converted them into fertitile little farms and gathered around some little strong and successful men. They terprising and successful men. They terprising and successful men. They take great interest and pride in their little town, and continued and larger growth may be looked for there. But the most hopeful sign of the times is that while progress is not so great in measure, in the poorest and least promising sections of the county it is relatively most conspicuous. Here the humble and lowly sons of toil, imitating the example of their forefathers, the heroic pioneers of colonial days, have gone into the forests, built them homes, opened successful men. They take great interest and pride in their little town, and continued and larger growth may be looked for there. But the most hopeful sign of the times is that while progress is not so great in measure, in the poorest and least promising sections of the county it is relatively most conspicuous. Here the humble and lowly sons of toil, imitating the poorest and successful men. They tile little farms and gathered around their firesides families and the comforts of life.

NEGROES DOING WELL It is also worthy of note that the pe-groes of this county are doing well. It is undeniably true that they are learn-ing habits of industry, economy and thrift. They are still negroes and not angels in ebony, but almost all of them have homes of their own-however humble. Many have good teams, some have good farms and nice, comfortable residences, and it may be set down as a rule that when a may be set down as a rule that when a negro owns land he is trying with greater or less judgment and perseverance and energy to improve it. Some are showing considerable enterprise. The Belmont Machine Company, composed of negroes exclusively, owns and runs a traction engine, steam saw mill, threshing machine they belor out has built up an excel-

gine, steam saw min, threating and hay baler, and has built up an excellent business among the white people of the upper end of the county.

I coking over the county as a whole it may be said that the Spotsylvanians have may be said that the Spotsylvanians have reached a measure of prosperity and business enterprise which will enable them to improve the opertunities which new lines of transportation will bring. They are closely associated by ties of business and trade, as well as by ties of friendship and blood, with the people of Fredericksourg, and the development and growth of town and country will naturally go hand to band. The ariginal burg is reported to town and country will naturally go hand in hand. The anicient burg is reported to be somewhat staid and slow, but business there is conducted upon safe and conservative lines. Failures are few; many of her business men are in highly prosperous circumstances and possess abundant capital. They will be found ready to grasp the opportunities which would certainly come with the construction of new lines of transportation, and their city would soon enter upon an era of industrial development, which will, in any event, come sooner or later, and make it a great manufacturing town.

a great manufacturing town. LOCAL OPTION. Just across the line our neighbors in Louisa county are in the thick of a fight trict, where the election is to come off on next Wednesday, the 18th of June. This fight is of unusual interest, because it fight is of unusual interest, because it has assumed a peculiar phase. It is understood that most of the liquor dealers, those to whom the court refused to grant license, are in hearty and active sympathy with the prohibitionists and temperance people. And it is also said that a large number of voters who are favorable to the liquor traffic will vote for local option. This is due to the fact that there is now This is due to the fact that there is now only one licensed bar-room in the district. This is kept by a negro at the courthouse, and many persons argue that this is in the nature of a monopoly. Few have taken the trouble to read the strong and able opinion in which Judge Sims set forth the reasons which made it his duty, in his judgment, to refuse to grant any license in the vicinity of the mines, cear Mineral. The drys are very confi near Mineral. The drys are very com-dent, and the fight is being watched with great interest throughout this section of the State by men of all shades of opin-ion. Dry weather and the intense heat are proving exceedingly injurious to all

THE POWER OF ELOQUENCE.

Jack" Lee Secures the Acquittal of Five Escaped Convicts.

(Special Dispatch to The Times.)
AMHERST, VA., June 18.—The fiv negro convicts that escaped from the guards at the road camp in this county on the night of May the eighth, and were captured a few hours later by a policeman in the city of Lynchburg while trying to make their escape, were brought there to-day and tried for the offense. They were indicted under section 4174 of the Code of Virginia, which makes it a felony and punishable by confinement from one to five years in the penitentiary.

It was thought that their counsel could do nothing more than put in the plea of gullty and plead for mercy and hope for the minimum term, but Mr. John L. Lee, of Lynchburg, happened to be in court when the prisoners were brought in, and Judge Campbell requested him to defend the negroes, as they had no counsel, and he would have to appoint some one to represent them, so Mr. Lee consented and went right into the case, which he handled with considerable vim and sagacity, and obtained a verdiet of not gullty for the jury.

Mr. Lee's contention was that there negro convicts that escaped from the

jury. Mr. Lee's contention was that there Mr. Lee's contention was that there was no evidence to show that these men had escaped from the penitentiary or from a sworn officer of said prison, and, further, there was no evidence before the court that the prisoners were convicts or any of the men in charge were sworn officers, and upon these technicalities he secured their verdict of not guilty, which has excited considerable comment here.

When he recited to the jury the cruel scorging that these men had been subjected to when captured and brought to the camp, he grew eloquent and pathetic, calling upon the jury in the name of God and humanity to give the prisoners the benefit of every technicality, which appeal moved the jury to tears and won them over to his way of thinking.

WAS A LUXURY, NOW A NECESSITY TO CITY

Mary Washington Hospital Will Miss Leiper Venable the Bride of Not Be Closed.

YOUNGEST NAT. BANK CASHIER AN

No Opposition Likely to Occur in the Circuit Judgeships Between Judges Mason, Wright, Grimsley and Nicol-Coronation Dinner.

(Special Dispatch to The Times.)
FREDERICKSBURG, VA., June 18.-The Mary Washington Hospital, of this city, has become such a necessity that the announcement by the association that the institution would be closed from the latter part of June to November 1st, during which time the additions will be built, caused such dissatisfaction that an arrangement has been made by which the ladies of the association have transferred to the medical fraternity of the city the management of the hospital from one the management of the hospital from now until the improvements are completed. The hospital as at present will, therefore, be kept open during the summer, and in November the management will again pass to the hands of the ladies, who have so successfully managed it in the past

figures. It's a fixed price!

The funds are to be used in providing additional tracks and equipments. Much of the new track and equipment has been contracted for. The necessity for a second track was referred to in the company's report for 1000, and again in that for 1901. During the current fiscal year there have been added 117 miles of second track, and a large amount of adsecond track, and a large amount of ad-ditional work has been done in prepara-tion for further extensions thereof, the company having undertaken what amounts in practice to double tracking the whole line from Chicago to New Orleans, over which, as stated in last year's report, the traffic is now in excess of hat which can be economically handled of hat which can be economically handled on a single track. The company has made additions to its equipment this year and has entered into contracts for further additions thereto.

THE TAYLOR CASE.

Senator Carmack Declares She is Victim of the Administration. (By Associated Press.)

WASHINGTON, June 18 .- When the Benate convened to-day a resolution offored several days ago by Mr. Carmack, directing the Civil Service Commission to inquire into the discharge from the War Department of Miss Rebecca J. Taylor for the publication of articles in payagages, crificising the President. in newspapers criticising the President, was called up, and Mr. Carmack ad-dressed the Senate in support of the resolution. He maintained that the requirements of the civil service law had been flagrantly violated in this case, in-asmuch as, he said, Miss Taylor had had no charges preferred against her, nor had she been offered opportunity to make answer to any charges. He intimated that she was discharged "because she took the wronk side of the Philippine question from the administration point

At the conclusion of Mr. Carmack's remarks the Isthmian Canal question was laid before the Senate.

THE RICE WILL.

Surrogate Fitzgerald Refused to Admi Document of 1900 to Probate.

Document of 1900 to Probate.

(By Associated Fress.)

NEW YORK, June 18.—Surrogate Fitzgerald to y after an attorney for Albert T. Patrick had closed the evidence on his behalf in regard to the alleged will of William Marsh Rice, said to have been executed in September, 1900, announced that he would refuse to admit the will to probate.

The ground given by the Surrogate was that the proof as to the will's due acknowledgment that it was the last will was insufficient. The Surrogate then proceeded to take evidence as to 1896 will.
